## INTRODUCTION

Implementation of the recommendations of Colombia's new Best Corporate Practices Code must be reported by issuers to the Financial Superintendence of Colombia (SFC, for the Spanish original) by means of this Best Corporate Practices Implementation Report.

The objective of this report is to inform the securities market of each issuer's implementation, or failure to do so, of the code's recommendations. To this end, for each recommendation there are three boxes for YES, NO and N.A. (not apply), as well as a space to supplement its response as follows:

If the answer is yes, the issuer must briefly describe the way such implementation has been made. If not, the issuer must explain the reasons why it has not been adopted.

The N.A. response can only be provided by the issuer in cases that for legal reasons it is not possible to adopt the recommendation. In this case, the issuer must indicate precisely the law or regulation which prevents it.

Given that, some recommendations are made up of a number of specific aspects, is important to emphasize that these will only be understood as implemented if all the aspects that compose them are met, unless the reason for not adopting some is of legal nature, which should be indicated.

Each recommendation has a box to indicate the date the issuer first implemented it. Additionally, there will be the box where the dates on which changes are made will be recorded.

Finally, when the issuer by its nature does not have the specific body to which the recommendation relates it shall be understood that it refers to the equivalent body within the entity.

**Measure No. 3 No capital dilution.**

**3.1.** In transactions that may cause the dilution of the capital of minority shareholders (i.e. a capital increase with a waiver of preemptive rights in the subscription of shares, a merger, a segregation (spinoffs), among others), **the corporation will explain them to the shareholders in detail** via a prior report from the Board of Directors and a recommendation regarding the terms of the transaction from an outside independent consultant of recognized standing (fairness opinion), appointed by the Board of Directors. These reports are available to the shareholders prior to the General Meeting, within the terms for the exercise of inspection rights.

**NO. Explain:**

The Financial and Non-Financial Information Disclosure Policy contained in the Corporate Governance Code (Chapter Five) expressly establishes that the Company shall communicate and disclose to its shareholders the information relating to transactions that may result in the dilution of shareholders' capital. Likewise, when complying with the procedure for disclosing information to shareholders and the market, the Company takes into consideration providing clear and sufficient information on possible capital dilution, in the event that there is any operation that gives rise to it.

As explained in July 2022 by the Company to the Financial Superintendency<sup>1</sup>:

- As of the date of completion and transmission of this survey, the most recent evidence of the adoption of this practice by the Company is verified in the information made available to shareholders on the occasion of the transaction that is the subject of the General Shareholders' Meeting, at its extraordinary meeting on September 12, 2019 (this was the last transaction that could lead to the dilution of the capital of minority shareholders). On that occasion, in accordance with the provisions of the measure, the Company explained in detail to its shareholders in a preliminary report, and with the opinion on the terms of the transaction, of an independent external advisor of recognized solvency (*fairness opinion*).

The above information is available at the following link on the corporate website: <https://www.grupoexitocom.co/es/asamblea-accionistas-2019-reunion-extraordinaria-12-septiembre-documentacion-soporte>

- During the years 2020, 2021, 2022, 2023, and 2024, no transaction was carried out that could lead to the dilution of and, therefore, lead to the implementation of said measure.
- In 2023, Grupo Éxito was separated from its parent company Companhia Brasileira de Distribuição ("CBD or GPA"), an operation that did not involve a dilution of Éxito's capital. In the case of members of Senior Management, during 2019 their employment contract was modified in order to give greater scope to the provision already included in it. Similarly, the people in Senior Management who have joined the Company after 2019 have this clause incorporated into their employment contracts.

In addition to the above, chapter six of the Company's Corporate Governance Code establishes the Insider Information Use Policy applicable to Directors and employees, which establishes the restricted periods for carrying out operations related to the sale or acquisition of shares of the Company. Likewise, the Company has an internal procedure to monitor compliance with this Policy, through which (i) as soon as a takeover bid or relevant transaction is known, and (ii) prior the disclosure of financial results, a series of verifications are carried out to validate compliance.

**Measure No. 6 Listing of corporations clustered in conglomerates.**

**6.1.** Without prejudice to the independence of every single company of the conglomerate and to the responsibilities of its management bodies, the conglomerate has an **organizational structure** that defines for the three (3) governance levels (Shareholders Assembly, Board of Directors, and senior management), the key bodies and individual positions and the relations between them. Such a structure is public, evident, and transparent; it determines clear responsibility and communication channels; it facilitates the conglomerate's.

6.1 Measure implementation      YES        NO        N/A   

**YES. Briefly indicate:** The shareholding structure of the Conglomerate is published on the Company's website, which explains the participation of the Company in each of the subordinated entities and the relationship that exists with each of the companies that make up the Business Group, which allows to easily define the strategic orientation, supervision, control and effective administration of the Conglomerate, respecting in all case the autonomy of each company in the monitoring of decision – making procedures.

Likewise, there is information on the corporate structure according to the financial statements, the statutory auditors, and the internal audit.

Proof of the application of this practice was presented during the year 2021, when the Company standardized the Corporate Governance practices of the national subsidiaries in which it had a participation equal to or greater than 95% of the capital stock, through a process of simplification of the governance structure, unifying the boards of directors in a single body called the Subsidiaries Steering Committee, being this the highest management body. The above, in order to: (i) have a single governing body in charge of carrying out its own strategic functions, seeking uniformity in corporate governance practices; and (ii) unify to the greatest extent possible, except for matters specific to the industry of each company, its bylaws and corporate governance codes, respecting in all cases the autonomy of each company in following the procedures for decision-making and the singularities of each of the businesses.

6.2. Under the previous provision, **the holding company and its most important subordinates have defined a framework for institutional relations** through the subscription of an agreement. Such an agreement is public, has been approved by the Board of Directors of each of the companies, and it regulates the topics indicated in recommendation 6.2.

6.2 Measure implementation      YES       NO       N/A

<p><b>YES. Briefly indicate:</b></p>
<p><b>NO. Explain.</b></p> <p>Although to date there is no single public agreement approved by the highest administrative body of each of the companies that are part of the conglomerate that regulates all matters concerning their various relationships; at the Group level, different practices have been adopted that are related to recommendation 6.2 and that are aimed at achieving: uniformity and homogeneity in their actions in order to achieve cohesion, the existence of the same primary interest to pursue and defend, the use of synergies, the definition of the guidelines to be complied with for the conclusion of contracts between them, the common vision regarding Control architecture issues, among others.</p> <p>In order to prove the above, the following are some examples of the practices related to this measure that the Company has adopted, namely:</p> <ul style="list-style-type: none"> <li>• The Company's Board of Directors approved the applicable conglomerate governance rules and incorporated them into the Corporate Governance policies contained in the Corporate Governance Code.</li> <li>• The Company and its subordinates have a common mission: "<i>To work so that the customer returns</i>", this being the interest that all companies pursue and defend, and with shared principles and values such as: service, teamwork, innovation, among others. Similarly, there is only one higher purpose at the Group level: "<i>We nurture opportunities in Colombia</i>".</li> <li>• As part of the process of seeking cohesion of the conglomerate and with the aim of achieving a common and shared vision at the structural level of the Business Group:</li> </ul>

- In the Corporate Governance Code, with regard to the Company's control architecture, it is expressly established that the Risk Management and Internal Control System takes into account the nature, size, complexity, risks inherent to the activity carried out and legal requirements of the Company and of each of the companies of the Business Group.

Likewise, the Code expressly states: *"The Tax Audit service will be assigned to the Company and its subordinates, with the same signature, with a common and shared vision of the Business Group."*

- During 2021, the Company carried out a process of standardization of the Corporate Governance practices of the national subsidiaries, so that their bylaws and each of their Corporate Governance Codes contemplated – as far as reasonably possible – the same practices and provisions of the Company, with the relevant exceptions according to the particularities of the industry and business of each subsidiary and respecting, in any case, the autonomy of each society in making certain decisions.
- The national subsidiaries whose structure corresponds to simplified joint-stock companies (S.A.S.) and which are the exclusive property of the Company, have a single and the same administrative body called the Subsidiaries Management Committee that exercises the functions of the highest administrative body of any company and which, being the same for said companies, it aims to ensure cohesion, unity and uniformity in practices and regimes, efficiency, coherence and strengthening of the strategy, etc.
- The criteria and mechanisms for determining the price and other conditions when transactions are presented between related parties are found in the Policy and Procedure that regulate the matter and that are intended to guarantee transparency, that transactions are always concluded at market prices and that the principles that govern the aforementioned Policy are complied with<sup>11</sup>.

The Company's Policy is found in chapter seven of the Corporate Governance Code and it expressly establishes that the transaction between related parties must, among others, promote the use of synergies. Similarly, the Corporate Governance Code of the subsidiaries also includes the guidelines of the Company's Policy.

The Company's Corporate Governance Code can be consulted at the following route:

The respective Procedure for Transactions between Related Parties can be consulted at the following route:

<https://www.grupoexito.com.co/es/1.Procedure-related-party-transactions.pdf>

Thus, the answer is NO, because to date there is no single document that contemplates all the matters previously raised and that is of a public nature and approved by the highest administrative body of each company. As stated, there are multiple internal corporate practices and provisions that regulate such matters, both at the level of the Company and its national subsidiaries, which are contained in different instruments and which, prior to their existence, have completed the required internal corporate procedures

7.1 Measure implementation      YES       NO       N/A

**YES. Briefly indicate:** Article 56 of the Bylaws provides for an arbitration clause to submit disputes to the decision of an Arbitration Court, as a last resort, after granting a term for direct settlement between the participants and the possibility of settling the conflict through the mechanism of amicable composition.

During 2024 there were no disputes between shareholders, or between shareholders and the company or its Board of Directors, so there was no need to resort to the dispute resolution mechanisms established by the measure.

**YES. On the other hand, Article 22 of the Bylaws expressly establishes that to submit an improper split operation to the Meeting for consideration, special requirements are required regarding the call, publicity and deposit of the operation project for the study of

the shareholders. In the same way, this matter is regulated in Article 8 of the Rules of Procedure of the General Shareholders' Meeting contained in the Corporate Governance Code (numeral 2.1.1)

Regarding the agenda set out in the call, Article 22 of the Company's Bylaws establishes the duty to expressly specify the topics to be discussed.

**YES. Briefly indicate:** Article 5 of the Rules of Procedure of the General Shareholders' Meeting contained in the Corporate Governance Code (numeral 2.1.1), establishes that the agenda must include precisely the content of the topics to be discussed and in no case will generic mentions be made that do not allow to know in detail the matter to be debated. In the same sense, article 19, second paragraph of the Bylaws, expressly establishes that the

Board of Directors and the administrators will refrain from submitting to the consideration of the Assembly any item that has not been included in the agenda published with the notice of the call.

In the agenda proposed by the Board of Directors for the meeting of the General Shareholders' Meeting held in 2024, each of the items to be considered and approved separately and with sufficient clarity of the matter in question was included. In turn, the content of the proposals that would be submitted for approval by the Assembly were published through the relevant information mechanism and on the corporate website, with adequate and sufficient notice and in accordance with good corporate governance practices.

**NO. Shareholders retain the right to submit their proposals during the Shareholders' Meeting unless it is a matter of submitting for consideration the separation (improper split) of the Company if such decision corresponds to this body, or, in the case of other matters that in accordance with the law can only be debated with prior observance of special requirements on calling, publicity and deposit of the project for the study of the shareholders during the term provided for the right of inspection.

In addition to the above, although the law does not contain a regulation on the handling of substitute proposals that are proposed during a meeting of the General Shareholders' Meeting; the Company has a regulation for the treatment of substitute proposals that allows them to be processed appropriately, with appropriate procedures that provide a correct functioning of the meetings and, in this sense, avoid confusion on how to proceed in the event that substitute proposals are presented.

Similarly, Article 2 of the respective Rules establishes that the Board of Directors of the Assembly shall be made up of the CEO of the Company, the Chairman of the Board and the General Counsel of the Assembly.

Notwithstanding the above regulation, which enshrines an optional attendance, at the ordinary meeting of the 2024 General Shareholders' Meeting, the measure was complied with, since the CEO of the Company, the Chairman of the Board of Directors together with some members of the Board, and the General Counsel of the Meeting were present at the place where the meeting was held (the Company's registered office), forming the board of directors of the Assembly. Likewise, the other members of the Board of Directors were virtually connected and available. The foregoing, to address the concerns presented by the shareholders. Thus, either through their presence in the venue or through their virtual connection, the participation of all the people mentioned in measure 12.1 was guaranteed for the purpose of serving the shareholders.

Consequently, the "No" option is selected, considering the recommendations received from the Financial Superintendence on August 5, 2024, where they inform the Company that the mandatory attendance suggested in the measure by qualified persons must be expressly enshrined in the Company's internal regulations.

**16.5.** Besides the **independence** requirements set forth by the Law 964 of 2005, the corporation **has voluntarily adopted a more rigorous definition** for this concept than that of the said law. Such definition has been accepted as a reference framework through the Rules of Procedure of the Board of Directors; it includes, among other requirements to be assessed, that of the relationships or links of any kind of a candidate to become an independent member with any controlling or significant shareholders or their related parties, either domestically or abroad. Furthermore, it requires a double statement of independence: (i) that of the candidate before the corporation, its shareholders, and senior management members, expressed in his/her letter of acceptance, and (ii) that of the Board of Directors with respect to the candidate’s independence.

**16.5 Measure implementation**    YES        NO        N/A   

**YES. Briefly indicate:** The definition of independent member established in chapter one of the Corporate Governance Code expressly includes the recommendation by establishing requirements, not only the requirements enshrined in Law 964 of 2005, but also additional criteria, associated with the candidate's relations with shareholders, with Senior Management and with stakeholders, in accordance with the provisions of the U.S. regulations applicable to the Company as an issuer of the U.S. stock market, in the Brazilian regulation as an issuer of the U.S. securities market, and in the *S&P Global Corporate Sustainability Assessment (CSA)*. It is, therefore, a more rigorous definition of independence.

<p>In this regard, Article Six of the Board of Directors Election and Succession Policy, contained in Chapter 2.2.2 of the Company's Corporate Governance Code, establishes that candidates for independent membership must declare such status in the communication in which they accept their application to be a member of the Board of Directors. Both the Board of Directors Election and Succession Policy contained in numeral 2.2.2 of the Corporate Governance Code, and the Procedure for the Election of Members of the Board of Directors, establish that the Board of Directors, through its Chairman, is the most appropriate body to centralize and coordinate, prior to the General Shareholders' Meeting, the process of forming the Board of Directors. Likewise, said Policy establishes that, together with the call to the meeting of the General Shareholders' Meeting, shareholders must be informed of the deadline they have to submit their lists of candidates to form the Board of Directors, to proceed with their evaluation in a timely manner.

For the election of the Board of Directors held at the ordinary meeting of the General Shareholders' Meeting on March 21, 2024, shareholders were informed through the call and additional information made available on the website, of the deadline for them to submit the lists of candidates to form the Board of Directors.

However, the "No" option is selected, since as of March 21, 2024, in accordance with the provisions of Law 964 of 2005 and without prejudice to the power of the Board of Directors to create management support committees in addition to the Audit and Risks Committee, the Company only has the latter Committee. By virtue of the above, the Board of Directors is the body, with the support of its President, most appropriate to centralize and coordinate the process of its formation.

However, taking into account that the Company is in a period of internal restructuring and adjustments in its corporate governance documents, at present a work plan as such has not been approved, but, taking into account the approved calendar for the 2025 sessions, and the internal planning in terms of reports, and obligations in general with which the Company must comply in its capacity as issuer of the securities market, ordinary meetings of the Board of Directors and specific issues that must be discussed in these meetings have been defined, without prejudice to the inclusion and submission to the Board of Directors of all the issues that in accordance with the different regulations and internal regulations, the Company must comply.

**19.9.** Every year, the Board of Directors assesses the effectiveness of its work as a collective body, that of its committees, and that of its members individually considered, including peer evaluation. Furthermore, it evaluates the reasonableness of its internal regulations, and the dedication and performance of its members, proposing changes in its organization and operation deemed pertinent. In the case of conglomerates, the Board of Directors of the holding Company demands that the assessment process takes place also within the Boards of Directors of the subordinate companies.

**19.9 Measure implementation**      YES        NO        N/A

**YES. Briefly indicate:**

**NO. Explain:** In accordance with the provisions of Article 14 of the Rules of Procedure for the Board of Directors, incorporated in numeral 2.2.1 of the Corporate Governance Code of the Company, the Board of Directors, the Audit and Risks Committee and those that may exist, may annually carry out an evaluation process to measure the qualities of the members of the Board of Directors and its Committees, their individual performance and the general performance of the respective body.

The Board may also alternate the internal evaluation technique with an external evaluation conducted by independent advisors.

In addition to the above, article 33 numeral (x) of the Bylaws establishes as a function of the Chairman of the Board of Directors that of leading the annual evaluation process of the Board and its Committees, except for his own.

During 2024, considering the recent appointment of the Board of Directors, the evaluation process was dispensed with, since the results of an evaluation under the above circumstances would not generate greater value for management, the company's shareholders and for the members of the Board of Directors. However, both the Board of Directors and management are committed to the constant improvement of their processes and guidelines regarding the operation of the Board of Directors and the Audit and Risks Committee.

In the case of the Company's subordinate companies, the internal performance evaluation for the year 2024 was dispensed with, considering that in December the retirement of some members of the senior management of the parent company who were part of the *Comité Directivo de Filiales Subsidiaries Steering Committee* (the body that serves as the Board of Directors of the subordinates) was presented, and that a process of restructuring the Committee is currently underway in order to generate greater value and effectiveness in decision-making and issues to be dealt with by the Committee.

**NO. In this sense, in accordance with the interpretation that the Company has made of the measure by enshrining the "alternation", the Company has alternated the evaluation technique, carrying out an internal self-evaluation in one period and an external one in the following year or period.

However, the "No" option is selected, considering the recommendations received from the Financial Superintendence on August 5, 2024, where they inform the Company that the alternation to which they refer must be made in the same period, that is, that in the same period there must be internal and external components.

**21.2. The procedure for the management of conflicts of interest makes a distinction about their nature** as occasional or permanent. If they are occasional, the applicable procedure indicates the rules and steps to be followed, which should be relatively easy to implement and hard to avoid for those affected. **YES. Briefly indicate:** In accordance with the definition of conflicts of interest contained in both chapter one of the Corporate Governance Code and numeral 5.5. of the Code of Ethics and Conduct, the Company has differentiated two types of conflicts of interest, as follows: (i) conflicts of interest that, in the opinion of the Conflict of Interest Committee, affect the operations of the Company as a whole and are of such magnitude that they make it impossible to the person involved in exercising his or her position, which coincides with the concept of permanent conflict of interest; and ii) conflicts of interest that, in the opinion of the Conflict of Interest Committee, can be managed following the rules set forth in the Conflict of Interest Policy, which coincides with the concept of sporadic conflict of interest.

It is the responsibility of the Conflict of Interest Committee to define the solutions and sanctions to be imposed in each case, when there is a violation of the duties and/or prohibitions defined in the Conflict of Interest Policy.
